Ride On Angel Wings

*Gone now, but not forgotten,
Forever in our dreams.*

*Every day the Sun shines for you,
Every day the Roads are dry.
The straights go on forever and
The bends are as you dream.*

*There are no pains,
There are no worries.*

You will be at every party.

You will take part in every race.

You will stand there on the podium.

You will race with the stars

And if the Angels ride on Motorbikes

Then you will surely travel far.

On Earth you were everyone's friend

And now you are a Star.

So Glide on Heavens highways

And lead the train up front.

One day you will be waiting

And together we will ride

Once more again as friends.
